

Anti-theft doors and wooden construction doors

## Company Overview

Adra Industrial Company has started its activity at the international level with the aim of producing and supplying all kinds of anti-theft doors and wooden construction doors. Adra Company has a brilliant record and experience in the production and export of various types of anti-theft doors and wooden construction doors. The prominent features of the Adra are the use of high-quality materials, specialized manpower, customization and regular scheduling, as well as planning with well-equipped factories on international standards to achieve customer satisfaction. Adra Company is always striving to increase the level of its technology and equipment, to produce high quality products with more diversity and to provide a safe shopping experience for their esteemed customers.

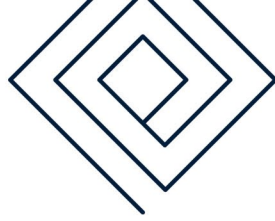

## Business Description

Anti-theft door is a combination of steel and wood, which leads to an increase in safety factor to prevent thieves from entering or delay the opening of the door in compliance with safety standards. When you leave your home or villa, securing the front door reduces your worry about the possibility of theft and you can travel easily. Adra Company specializes in the production and export of various types of anti-theft doors and wooden construction doors using experienced staff. Our goal is to increase the safety of homes by maintaining the beauty and quality of appearance.

The quality of the products is competing with the most prestigious brands in the world in every way, and in some cases, they have a higher quality. Adra Company, by creating active agencies and extensive support in the region, aims to provide maximum customer satisfaction by providing comprehensive after-sales services, and by providing high-quality products with appropriate services, Adra brand has become recognized as a reputable company in the industry of anti-theft doors and wooden building doors.
